

Project Cargo & General Logistics

Experts for Russia, Europe, CIS Countries, Central Asia and Middle East.

In this presentation, we have selected general information about our company for your acquaintance with us and the services we offer.

About Us

After the years of close partnership and cooperation between ELEVEN and DANIR 19, we evolved for the joint venture. Highest level of service provided to customers was always priority for both companies, and now we stepped forward and are offering our clients extended list of services on CIS, Russia, and Central Asia routes. Now we are a one stop solution for general cargo and project cargo services, combining experts in both fields under “one roof”. We aim to increase our geographical presence and expand experience fields that will bring even higher spectrum of services.

10 Years in Project
Cargo

18 Years in General
Logistics

Type of Transport

Road Transport

Trucks provide a great way to ensure timely, flexible delivery to your destination.

Railroad Transport

Trains provide a cost-effective option for long-distance shipping when delivery times are flexible.

Ocean & Barging

A reliable, cost-effective mode for shipping both large and small volumes of cargo that aren't time-sensitive.

Air Transport

Airplanes provide the fastest, most reliable service for urgent shipments that need to travel a long distance in a short amount of time.

Core Services

As a comprehensive logistics services provider and with a long time of work and cooperation with many companies from different industries – we have identified four core specialisations in which you can consider us as experts.

General Cargo

Cargo that can be loaded into standard shipping packages such as boxes, crates, pallets or with dimensions fitable into 40' high cube shipping container with weight not over 22 tons.

Out of gauge cargo.

Any cargo that will not fit in a standard 40' High cube shipping container or too heavy to handle with standardized equipment (approx.. more than 22t).

Project Cargo

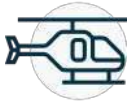

Complex transportations, with different types of cargo, from different locations.

Third-Party Logistics (3PL)

Whether you need a one-time assistance under single project or a constant advisement and partner in your supply chain – you can rely on our highly professional team.

Additional Services

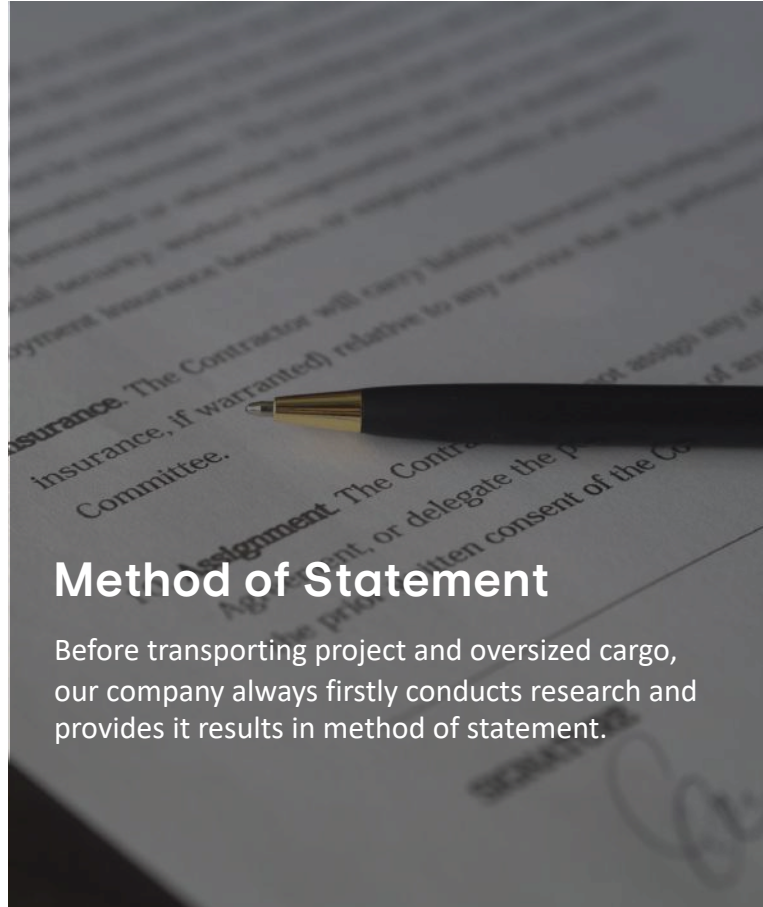

Our Advantages

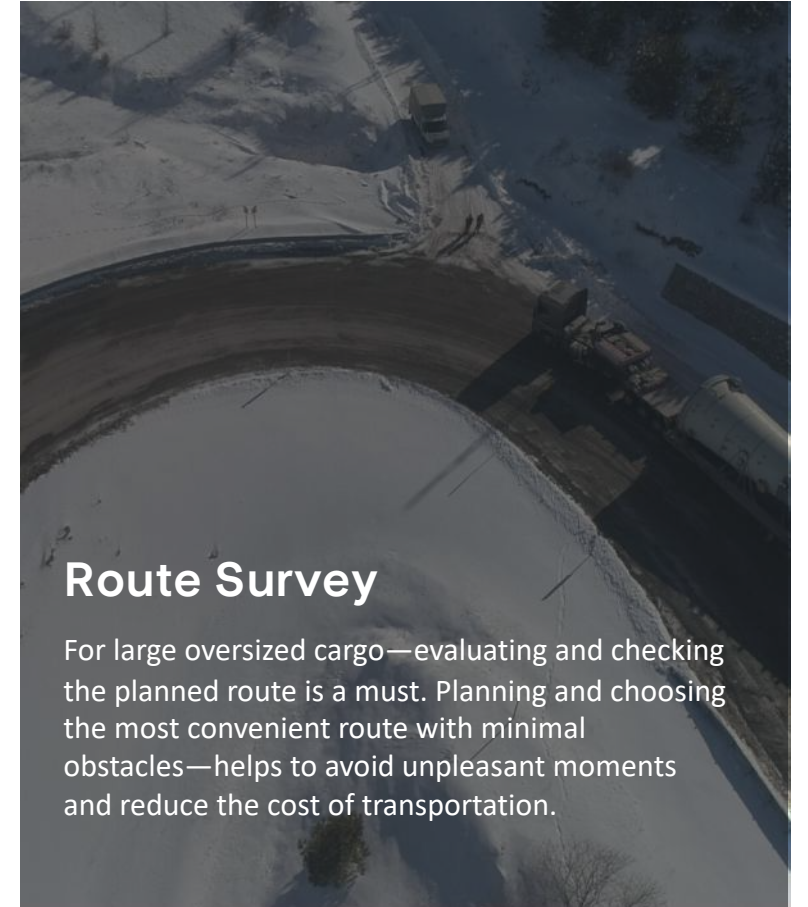

Operations Survey

All operations under project and large oversized cargo transportations are always supervised by independent survey experts to ensure the safety of the cargo.

Method of Statement

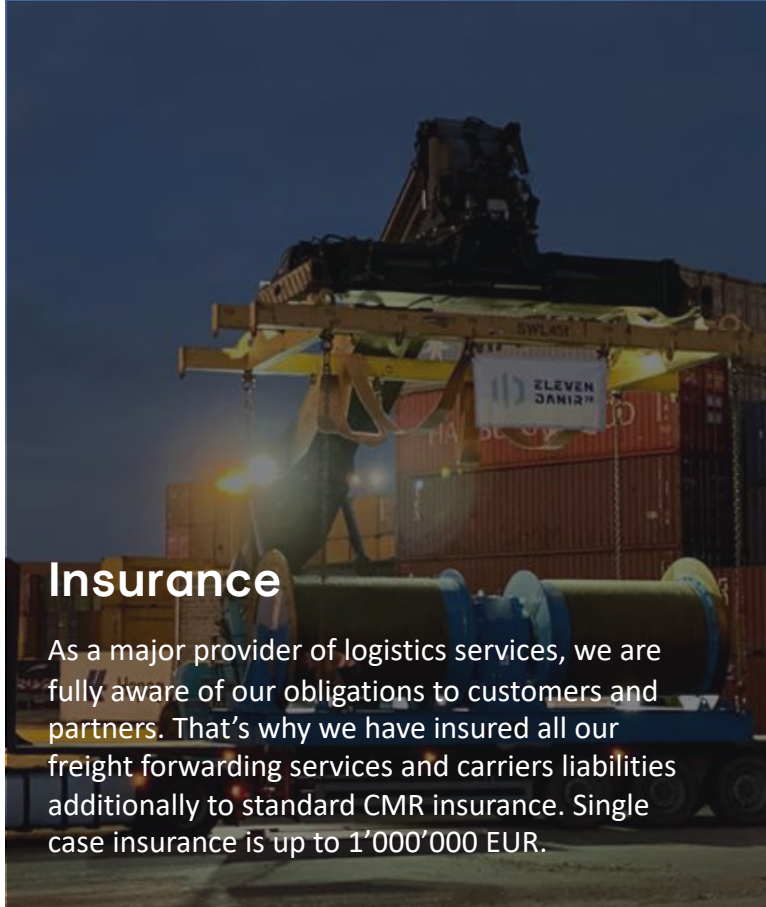

Before transporting project and oversized cargo, our company always firstly conducts research and provides it results in method of statement.

Route Survey

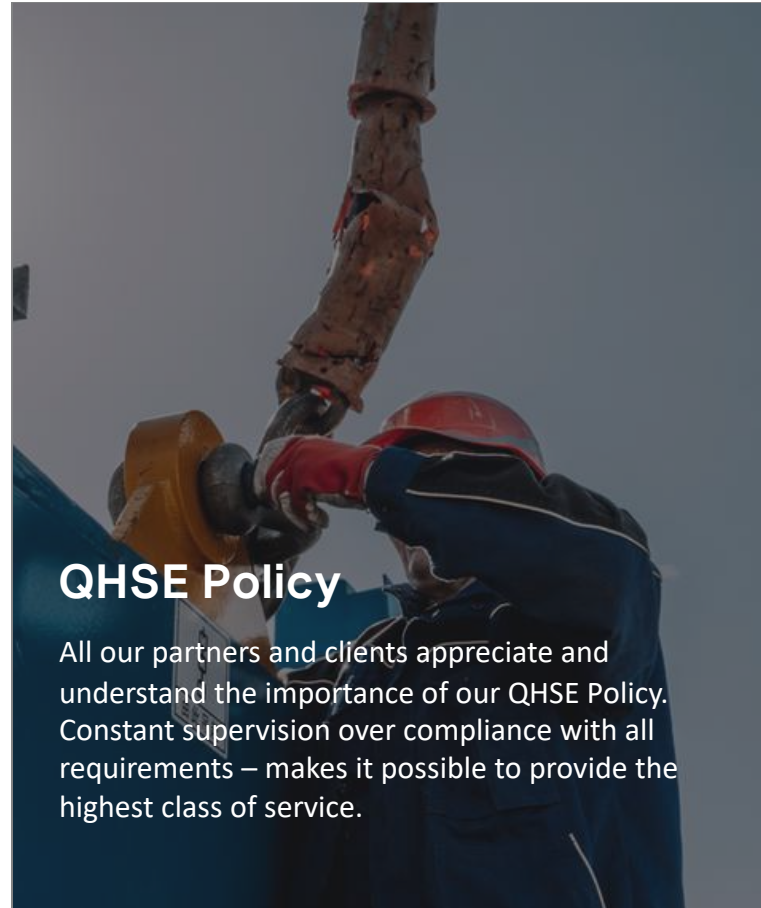

For large oversized cargo—evaluating and checking the planned route is a must. Planning and choosing the most convenient route with minimal obstacles—helps to avoid unpleasant moments and reduce the cost of transportation.

Our Advantages

Insurance

As a major provider of logistics services, we are fully aware of our obligations to customers and partners. That's why we have insured all our freight forwarding services and carriers liabilities additionally to standard CMR insurance. Single case insurance is up to 1'000'000 EUR.

QHSE Policy

All our partners and clients appreciate and understand the importance of our QHSE Policy. Constant supervision over compliance with all requirements – makes it possible to provide the highest class of service.

Our Network

Since 2016

WCA: Inter Global

WCA Inter Global (formerly IGLN) is the world's largest single network, with 4667 member offices around the world. Formed specifically to help develop trade and partnerships to and from the emerging economies of the world, this vibrant network enjoys the best of both worlds, with full WCA benefits combined with hundreds of professional independent forwarders in the world's most exciting markets.

Since 2014

WCA: Project

After 4 years of close collaboration with the WCA and reliable companies from this network, we were also invited to identify ourselves as specialists in project logistics within this network. Since project logistics is one of the most difficult areas in our industry, we were glad to join the network to undoubtedly improve the network of partners and specialists in project logistics.

Since 2020

Project Cargo Network

In 2020, we were invited by "PCN: Project Cargo Network" to join their network which was established in 2010 and comprises of 260+ top project cargo and heavy lift specialists in 115+ countries, who handle the transportation of oversized and heavy items or shipments that consist of complex components.

Certificates

Quality is our standard. In “Eleven Danir19” we are fully aware of our responsibility towards all our partners – from customers to residents of the surrounding area. Certificates credibly demonstrate our competency and quality to customers and partners.
