

Project Cargo & General Logistics

Expert for Russia, Europe, CIS Countries, Central Asia and
Middle East.

About Us

After the years of close partnership and cooperation between ELEVEN and DANIR 19, we evolved for the joint venture.

Highest level of service provided to customers was always priority for both companies, and now we stepped forward and are offering our clients extended list of services on CIS, Russia, and Central Asia routes.

Now we are a one stop solution for general cargo and project cargo services, combining experts in both fields under "one roof". We aim to increase our geographical presence and expand experience fields that will bring even higher spectrum of services.

Our Advantages

Insurance	As a major provider of logistics services, we are fully aware of our obligations to customers and partners. That's why we have insured all our freight forwarding services and carriers liabilities additionally to standard CMR insurance. Single case insurance is up to 1'000'000 EUR.
QHSE Policy	All our partners and clients appreciate and understand the importance of our QHSE Policy. Constant supervision over compliance with all requirements – makes it possible to provide the highest class of service. We always check every truck we set for operations with our checklist for compliance.
Operations Survey	All operations under project and large oversized cargo transportations are always supervised by independent survey experts to ensure the safety of the cargo. For general cargo transportation, the operations survey is carried out by prior request.
Method of Statement	Before transporting project and oversized cargo, our company always firstly conducts research and provides it results in method of statement. Which contains the estimated route, loading plans, lashing and trailers schemes with additional relevant information.
Route Survey	For large oversized cargo – evaluating and checking the planned route is a must. Planning and choosing the most convenient route with minimal obstacles – helps to avoid unpleasant moments and reduce the cost of transportation.

Industries We Serve

 Aerospace	 Agriculture	 Chemical
 Civil Infrastructure	 Food & Beverages	 Industrial Projects
 Military	 Mining & Metals	 Oil & Gas
 Petro chemical	 Pharmaceutical	 Power & Energy
 Shipbuilding	And other industries	

Highlighted Projects

Autoclaves to Uzbekistan

Delivery of two out of gauge autoclaves from Germany to Uzbekistan by truck, barge, ship and railroad transport. 45 meters in length, 3.6 meters in diameters with a gross weight of 87000 kgs.

- From Germany to Uzbekistan.
- Cargo: 2 OOG autoclaves.
- Gross weight: 87 000 kgs.
- Dimensions: 45 x 3.5 x 3.6 meters.
- Transshipments: 5

Turbine to Siberia

Rare multimodal transportation of heat exchanger by road, sea and railway transport. From France to Siberia. On-carriage of 160 metric tons cargo to destination was made by unique railway platform.

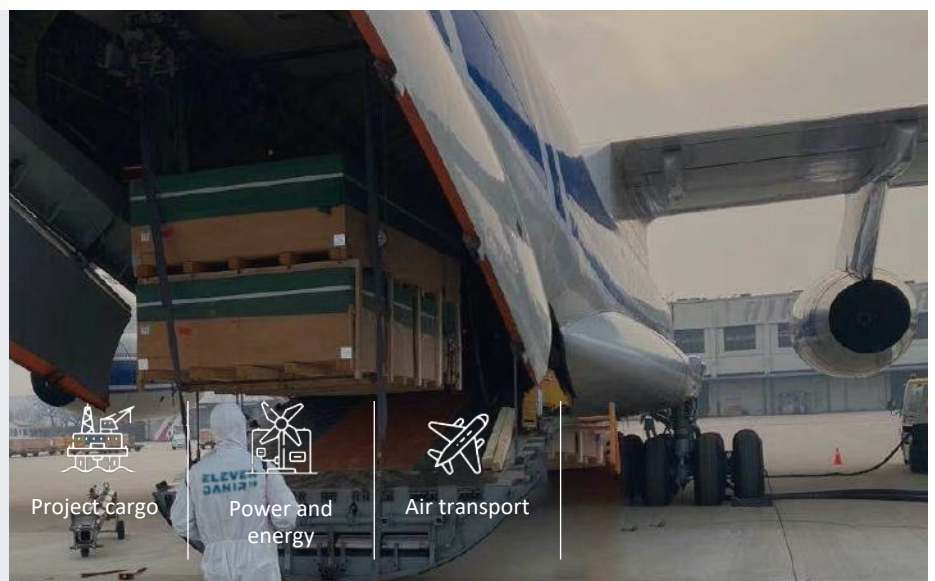

- From France to Siberia.
- Cargo: OOG heat exchanger.
- Gross weight: 160 metric tons.
- Unique railway platform.

Fully loaded IL-76

As part of a large project of hydro plant rehabilitation, our team successfully organized the air charter transportation of a fully loaded with 43400 kg (80 cubic meters) of equipment aircraft IL-76 from China to Kyrgyzstan.

- From China to Kyrgyzstan.
- Cargo: 20 boxes with equipment.
- Gross weight: 43 400 kgs.
- Fully loaded IL-76 aircraft.
- Delivered in less than 26 hours.

Highlighted Projects

LNK Project

More than 520 positions with total weight of 1917 metric tons, including large out of gauge positions – almost 7 meters over-width. Delivery by more than 150 trucks and with the assistance of pilots and the police escort for out of gauge pieces.
